06_Scenario_v4_BAB.docx

Hi Phil,

I've attached a version with my comments and edits. Also, I combined Glenn's comments and edits in with mine to save you from having to do that later, and typed in some responses to his comments.

I've gotten myself confused on what figures are going to be in the new Chapter 4 versus what was in the old Chapter 4. Same thing with Tables. But, I updated a couple in the file to Chapter 6 tables. We'll have to go through and match them up later. Ralph sent out a recent water balance, but I did not update our chapter because the titles for the TSFs are not 1, 2, and 3 and I wasn't positive which was which for G, A, and B.

Feel free to give me a call to discuss. I'm in M-Th this week 7-4:30 EDT (out Friday).

Cheers,
Barb

Hi Phil,

I've been knee deep in 3 other projects today, so did not have time to read it today. I will read this over the weekend and get it back to you on Monday AM with any comments.

Cheers,
Barb

Hi Barb,
I think that this draft is getting fairly complete. We still need the water balance section. I made several edits. Would you like to read through to see how it flows and if you agree with my edits?

I am still expecting some edits from Glenn, but Kate's last round are included.

Phil
